

The Future of Dining is Here

PRESENTED BY
Mohammed Hasnain

Regular Menus

Traditional paper menus are **outdated** and costly to update. They fail to engage customers effectively, leading to missed opportunities for upselling and customer satisfaction.

Expensible
to Reprint

Difficult,
Visualize

Low Engagement

Pain Points!

Here comes AR menu

What is AR Menu?

Experience dining like never before with our **Augmented Reality Menu**, allowing customers to view 3D dish visuals directly on their tables, enhancing order decisions with no app required.

How It Works

Discover the **simplicity** of our AR Menu System in just three steps: scan the QR code, watch the 3D dish appear, and enjoy ordering with ease.

See It in Action
